The HKMM CSR Partner Programme is a way for local and global businesses to support the Museum in ways that map to your Corporate Social Responsibility commitments and priorities.

Annual and recurring in nature, your support can be directed to a wide-variety of initiatives both underway and envisioned by the Museum or to a specific programme. And by matching your corporate CSR interests with one of four HKMM programme categories, we can enhance the dynamic experience of the Museum for Hongkongers and international visitors alike.

- 1 Education and Public Programmes
- 2 The Arts, Environmental Awareness and Social Enterprise
- 3 Exhibitions, Artefacts and Academic Pursuits
- 4 Capital and Operational Improvements

Benefits of Your Contribution

Our reputation is growing as an engaging, interactive and accessible museum reaching an estimated 100,000 visitors a year. CSR Partner contributions help serve students, adults, the elderly and disadvantaged through public and education programmes, leading a dynamic conversation and creating an experience about maritime trade. Artistic endeavors and environmental awareness are also growing areas of focus for us, an area of multi-generational, global interest. Your contributions will directly benefit these and other museum efforts that bring context to maritime trade in the past, present and future.
